6.2.1.1 List of Terrestrial Flora

The following tables present the lists of terrestrial flora identified in the study area. The legend is common to all tables.

Legend

- **Latin Name** – Nomenclature from most up to date sources of data including IUCN (2011) as well as recent publications on species.
- **(1) Presence**
 - Observed – Species directly seen or indirectly recorded from field signs (tracks, droppings, territory markings, skins, feeding remains or other); and
 - Potentially Present – Species not directly or indirectly identified but thought to be potentially present due to suitability of habitat recorded, current range of the species (from literature or records) or both range and habitat suitability together.
- **(2) Habitat Preference** – The Habitat likely to support species is categorized as shown in *Table 6.2.1.1-1*:

Table 6.2.1.1-1 Categorisation of Habitat Likely to Support Species

Agricultural areas	Bare rocks with scarce vegetation	Beaches, dunes and sand plains
Broadleaved beech (<i>F. sylvatica</i>) forest	Coastal coniferous forest dominated by <i>P. halepensis</i> and <i>P. pinea</i>	Coastal wetlands / lagoons
Coniferous forest dominated by <i>P. halepensis</i>	Coniferous forest dominated by <i>P. nigra</i>	Drainage channels
Evergreen Sclerophyllous scrubs/forests – Macchia	Evergreen Sclerophyllous scrubs/forests – Pseudomacchie	Mixed broadleaved forest dominated by oaks (<i>Quercus</i> sp)
Mixed mosaic agricultural areas	Natural grasslands	Natural lowland grasslands (below 1500 masl)
Olive groves	Other wetlands (Stagnant water)	River and stream habitats (Running water)
Salt marshes	Seminatural lowland grasslands (below 1500 masl)	
Subalpine grasslands (above 1500 masl)	Transitional woodland shrub	

Source: ERM (2011)

- **(3 – 4) Conservation Status** – Status of species listed based on level of conservation threat faced Nationally and according to local Albanian Red Book Listing using the IUCN classification system at a National level. Both classification systems utilize the following categories: Critically Endangered (CR), Endangered (EN), Vulnerable (VU), Near Threatened (NT), Data Deficient (DD), and Not Evaluated (NE).
- **(5) Study Area Abundance** – Population estimated within the study area of the pipeline section.

<i>Latin Name</i>	<i>Albanian name</i>	<i>English name</i>	<i>Observed (1)</i>	<i>Potentially present (1)</i>	<i>Habitat preference (2)</i>	<i>Albania Conservation Status (3)</i>	<i>IUCN Conserv. Status (4)</i>	<i>Study Area Abundance (5)</i>
<i>Acer campestre</i>	Kreke	Common Maple	X		Transitional woodland - shrub	Common, Stable and fragmented		Common, Stable and fragmented
<i>Acer obtusatum</i>	Panje	Hungarian maple	X		Transitional woodland - shrub	Common, Stable and fragmented		Common, Stable and fragmented
<i>Acer platanoides</i>	Panje gjetherrapi	Norway Maple	X		Transitional woodland - shrub	Common, Stable and fragmented		Common, Stable and fragmented
<i>Acinos arvense</i>	Mendermire e arave	Basil Thyme	X		Transitional woodland - shrub	Common, Stable and widespread		Common, Stable and widespread
<i>Adiantum capillus-veneris</i>	Fier i krojeve	Maidenhair Fern	X		Transitional woodland - shrub	Common, Stable and fragmented	VU	Common, Stable and fragmented
<i>Aegilops geniculata</i>	therlak	Egg-Shaped Goat Grass	X		Seminatural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Aegopodium podagraria</i>	Bar i shtergjise	Bishop's Weed	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Rare, Stable and fragmented		Rare, Stable and fragmented
<i>Aethionema saxatile</i>	Etioneme shkembijnsh	Candy Mustard	X		Seminatural lowlands grasslands (below 1500 m a.s.l.)	Rare, Stable and fragmented		Rare, Stable and fragmented
<i>Agrimonia eupatorium</i>	Rodhez	Common Agrimony	X		Seminatural lowlands grasslands (below 1500 m a.s.l.)	Rare, Stable and fragmented	EN	Rare, Stable and fragmented
<i>Agrostis rupestris</i>	Barimez shkembijnsh	Rock Bent Grass	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Agrostis stolonifera</i>	Barimez e bardhe	Creeping Bent	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented

<i>Aira elegantissima</i>	Veri elegant	Elegant European Hairgrass	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Ajuga genevensis</i>	Ajuge e Gjeneves	Blue Bugle	X		Transitional woodland - shrub	Common, Stable and fragmented		Common, Stable and fragmented
<i>Alisma plantago aquatica</i>	Kelkaze uji	Water Plantain	X		Other wetlands (stagnant water)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Alnus glutinosa</i>	Verri i zi, vri	Common Alder	X		Stream/river habitat (running water)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Alopecurus gerardii</i>	Pungace e gerardit	Alpine Foxtail	X		Seminatural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Alopecurus pratensis</i>	Bishtdhelper	Meadow Foxtail	X		Seminatural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Althaea officinalis</i>	Mellage e bardhe	Marsh Mallow	X		Seminatural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Alyssum alyssoides</i>	Barpleshti	Small Alyson	X		Seminatural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Alyssum murale</i>	Serice muresh	Wall Alison	X		Seminatural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Anthoxanthum odoratum</i>	Pesta erëmirzë	Scendet Vernal Grass	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Anthyllis vulneraria</i>	Antilidë plagëshërues	Kidney Vetch, Lady's Fingers	X		Transitional woodland - shrub	Common, Stable and fragmented		Common, Stable and fragmented

<i>Briza maxima</i>	Brize e madhe	Greater Quaking Grass	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Bromus intermedius</i>	Barthek i ndermjetem	Intermediate Brome	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Bromus erectus</i>	Barthek i ngritur	Erect Brome, Upright Brome	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Bromus hordeaceus</i>	Barthek elbngjashem	Lop-Grass, Soft Brome	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Bupleurum flavicans</i>	Bupleur verdhoke	Hare's-Ear	X		Coniferous forest dominated by <i>Pinus nigra</i>	Common, Stable and fragmented		Common, Stable and fragmented
<i>Buxus sempervirens</i>	Bush	Box, Box-Tree	X		Bare rocks with scarce vegetation BR	Abundant, Stable and widespread		Abundant, Stable and widespread
<i>Calamagrostis epigejos</i>	Kallam mbitokesor	Bush-Grass	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Common, Stable and fragmented		Common, Stable and fragmented
<i>Calamintha grandiflora</i>	Mendermire lulemadhe	Large-Flowered Calamint	X		Transitional woodland - shrub	Common, Stable and fragmented		Common, Stable and fragmented
<i>Calamintha nepeta</i>	Mendermire nepete	Lesser Calamint	X		Transitional woodland - shrub	Common, Stable and fragmented		Common, Stable and fragmented
<i>Calamintha sylvatica</i>	Mendermire pyjesh	Common Calamint	X		Transitional woodland - shrub	Common, Stable and fragmented		Common, Stable and fragmented
<i>Calystegia sepium</i>	Pershellize	Hedge bindweed	X		Transitional woodland - shrub	Common, Stable and fragmented		Common, Stable and fragmented
<i>Campanula glomerata</i>	Lulekambanë lëmshuke	Clustered Bellflower	X		Coniferous forest dominated by <i>Pinus nigra</i>	Common, Stable and fragmented		Common, Stable and fragmented
<i>Campanula trachelium</i>	Lulekambanë qimekuqe	Beech-Wood Bellflower	X		Natural lowlands grasslands (below 1500 m a.s.l.)	Rare, Stable and fragmented		Rare, Stable and fragmented
